

“MAPPING THE GAP”:

An event combining the creation of art with public education and organizing for access to health care

May 22, 2025
7:00-8:00pm

Baker Arts Center
624 N. Pershing Ave.
Liberal, KS 67901

Kansas faces an urgent need to protect and expand Medicaid, and this event offers a creative way for Kansans to unite and raise their voices through art.

Led by Mulvane artist Malissa Long, participants will engage in a hands-on textile art project designed to highlight the gaps in health care access in Kansas communities. The final collaborative artwork will serve as a symbol of the need for grassroots advocacy to transform our state into a place where all Kansans have access to affordable health care when they need it.

Each participant will contribute to the collective work and also create a smaller piece to take home. This family-friendly event welcomes all ages and skill levels - no artistic experience necessary!

RSVPs are appreciated so we can ensure enough supplies for everyone.
